PROFESSIONAL SUMMARY

Motivated and detail-oriented Information Technology graduate (B.Tech. 2026) with hands-on internship experience at Jio-bp (Reliance BP Mobility Limited) in backend development using Java Spring Boot. Skilled in REST API development, database management, manual API testing, technical documentation, and CI/CD deployments using Azure DevOps pipelines. Strong understanding of scalable backend systems, software development lifecycle, and enterprise application development.

TECHNICAL SKILLS

Programming Languages	Java, Python, JavaScript
Backend Technologies	Spring Boot, Spring MVC, REST APIs, Spring Data JPA, FastAPI
Database Management	MySQL, PostgreSQL, SQL
Tools & Platforms	Git, GitHub, Docker, Azure DevOps, Postman
Cloud & Deployment	CI/CD Pipelines, Docker Deployment, Cloud Hosting
Frontend	HTML5, CSS3, JavaScript, Tailwind CSS, Next.js, React
Data Visualization	Power BI, Tableau

INTERNSHIP EXPERIENCE

Jio-bp (Reliance BP Mobility Limited)

January 2026 – Present

Backend Developer Intern – Digital Team

Bharuch, Gujarat, India

- Worked on backend application development using Java Spring Boot framework for enterprise-level platforms.
- Designed and developed RESTful APIs for frontend-backend integration and internal services.
- Managed and optimized relational databases including schema creation, query handling, and maintenance.
- Performed manual API testing using Postman to validate endpoints, responses, and workflows.
- Created technical and API documentation for development and operational support.
- Contributed to deployment and release activities through Azure DevOps CI/CD pipelines.
- Collaborated with developers and stakeholders in Agile-based project workflows.
- Participated in debugging, issue resolution, and backend performance optimization.

PROJECTS

TaskFlow – Agile Kanban Board

[Live App](#) | [GitHub](#)

Technologies: Java, Spring Boot, Spring Data JPA, JavaScript, Docker

- Developed a full-stack Agile task management application with REST API-based task handling.
- Implemented persistent task management and real-time task movement features.
- Containerized and deployed the application using Docker.

AI Portfolio Assistant – Intelligent RAG Chatbot

[Live App](#) | [GitHub](#)

Technologies: Next.js, React, Qdrant Cloud, Google Gemini API, RAG Pipeline

- Engineered a serverless Retrieval-Augmented Generation (RAG) chatbot using Qdrant Cloud database.
- Integrated Gemini 2.5 Flash and Gemini-embedding-2, reducing latency from 30+ seconds to under 1.5 seconds.
- Implemented dynamic local fallback routing to offline Ollama models for resilient offline environments.

EchoChat – Real-Time Communication Platform

[Live App](#) | [GitHub](#)

Technologies: Python, FastAPI, WebSockets, Docker

- Built a scalable real-time chat platform with private messaging and multi-channel communication.
- Implemented WebSocket-based real-time communication and routing.

Interactive Portfolio & Web Applications

[Live App](#) | [GitHub](#)

Technologies: HTML5, CSS3, JavaScript, Vercel

- Designed and deployed responsive web applications with modern UI/UX.
- Integrated animations and continuous deployment workflows.

EDUCATION

- **Parul University** (2023 – 2026) – B.Tech. Lateral, Information Technology | CGPA: 7.87/10
- **Aditya SilverOak University** (2023) – Diploma in Information Technology | CGPA: 7.97/10
- **Calorex Public School** (2017) – 10th CBSE | CGPA: 6.20/10

CERTIFICATIONS

- Advance Java Certification
- Web Designing Course
